When the Antarctic Convergence is left in

our wake, you will truly begin your

Antarctic adventure. It is perhaps the first

sight of land itself that is embraced as the

true beginning of any Antarctic expedition.

You can begin to appreciate why this region

has long captivated the attention of

explorers and travelers alike. Every time we

visit Antarctica we witness something new

or unexpected, meaning your expedition will

be unlike any other—creating a unique,

personal experience. We will take Zodiac

excursions from the ship to explore bays,

channels and landing sites each day. With

wildlife always at the forefront of our minds

you will visit penguin rookeries, scout for

humpback and Minke whales and search for

a number of the southern seal species,

including the cunning leopard seal. The

majesty of the Antarctic Peninsula's

mountains will enchant as you scramble up

snowy pathways to vantage points offering

you 360° views of your surroundings. One of

these in particular, in Danco Island, affords

us the opportunity to visit a penguin colony

high up on a ridge. Here, you'll have the

choice between hiking to the island's

summit or spending time sitting quietly on a

pebbled beach, enjoying the antics of

curious penguins. If you're feeling extra

adventurous, participating in the Polar

Plunge swim is about as crazy as it gets!

Amidst the serene silence of Antarctica,

noisy interludes now become indelible

memories, such as penguins squabbling

over prized pebbles, or the boom and crack

of a calving glacier in Neko Harbour. Every

day will be different, having been carefully

crafted by your Expedition Team so as to

entertain and educate you about this

wonderful part of the world.
