Introduction

Straddling the Argentinean and Brazilian border, Iguazu Falls is one of the most spectacular waterfalls in the world. 275 cascades are spread across a canyon of almost two miles. The most impressive of which is Garganta del Diablo, or the Devil's Throat. On this Chimu Adventures Iguazu extension you will visit both sides of the waterfalls. Both sides provide awe-inspiring views of Iguazu falls, with the Argentinean side providing an up-close encounter and the Brazilian side boasting incredible panoramas. The jungle trails are also home to a diverse array of wildlife, so keep your eyes peeled for capuchin monkeys and toucan along the way.

DAY 2: Iguazu Falls, Argentina

Today you will enjoy a full day touring the Argentinean side of Iguazu Falls in Parque Nacional Iguazu. You will arrive early to board the first train to the Devil's Throat, the largest of the falls at Iguazu. This particular section drops more than 262 feet into the Iguazu River below. To reach the Devil's Throat from the train you will follow walkways through the rainforest where, if you're lucky, you might spot a toucan or even a black capuchin monkey. After viewing the Devil's Throat from the balcony, explore the upper circuit before discovering the lower circuit. Although not included, there is the option locally to take a speedboat ride closer to the falls. If you would like to enjoy a jetboat ride and go under the waterfalls at Iguazu, this can be added onto your Iguazu Falls tour from the Argentine side at an additional cost. There are a number of stairs to get to where the jetboat departs, so it may not be suitable for those who have mobility issues. Please contact your booking agent if you would like to include this.
