Check in and luggage drop off is at the

Cruceros Australis office, between 13:00hrs

and 17:00hrs (1pm-5pm) at Muelle Prat

Locations: Costanera del Estrecho de

Magallanes 1998 on Punta

Waterfront. Boarding commences at

18:00hrs (6pm) with departure scheduled at

20:00hrs (8pm). All passengers must be on

board the vessel at least one hour before

departure. Please note your luggage will be

taken to your cabin. After a welcoming

cocktail reception hosted by the Captain

and his crew, the ship will depart for one of

the remotest parts of the planet. During the

night we cross the Strait of Magellan and

enter the labyrinth of channels that define

the southern extreme of Patagonian. The

twinkling lights of Punta Arenas gradually

fade into the distance as we enter the

Whiteside Canal between Darwin Island and

Isla Grande de Tierra del Fuego.

DAY 2: Ainsworth Bay - Tuckers Islets

At dawn, we will navigate our way through

Almirantazgo Sound, arriving at Ainsworth

Bay which is sited within Alberto De

Agostini National Park. It's the perfect spot

from which to see the Marinelli Glacier

descending from Darwin Mountain Range in

the distance; and to appreciate how the land

returns to life after glacial retreat. We will

also take a walk to a beaver dam in the

stunning sub-polar Magellan Forest.

Whether on the beach or the island, there's

a good chance of sighting Southern

Elephant Seals. But do bear in mind the fact

that sightings cannot be guaranteed due to

the colony's unpredictable

movements. Later, we will be sailing to

Tuckers Islets, and after lunch, we will

board well-equipped Zodiac boats to get

close to a colony of Magellan Penguins

(indigenous to the Southern Hemisphere)

and cormorants. * In September and April,

this excursion is replaced by a short walk to

a nearby glacier at Brookes Bay.

DAY 4: Wulaia Bay - Cape Horn

During the morning we will be sailing through Murray Channel, going ashore at historical Wulaia Bay, originally the site of one of the region's largest Yamana aboriginal settlements. Charles Darwin landed there in 1833 during his voyage on the HMS Beagle. This area is also renowned for the mesmerizing beauty of its vegetation and geography. We will take an enchanted walk through the Magellan Forest of lengas, coigües, canelos, ferns, and other endemic vegetation, to reach a panoramic viewpoint. In the afternoon we will go South through Nassau Bay to reach Cape Horn National Park, where, weather permitting, we shall go ashore. The legendary Cape Horn was discovered in 1616 and is a sheer 425-meter (1,394-foot) high rocky promontory. For many years it was an important navigation route between the Pacific and the Atlantic, and is referred to as the 'End of the Earth'. The park was declared a World Biosphere Reserve by UNESCO in 2005.
