

Ecuador - Northern Islands Cruise | Horizon Trimaran

Trip Code
ECHT5D
Departure

Introduction

Are you ready for an adventure in the Galapagos Islands. Hop onboard the Horizon Trimaran, the only tri-hull vessel cruising in the Galapagos. On this expedition cruise you will be able to explore the wonders of the Galapagos over 5 wonderful days. See a wide range of unique flora and fauna and explore the islands with a National Park certified guide. Enjoy a range of activities including panga (zodiac rides) to spot marine birds flying high, walks and hikes, spotting wildlife and snorkelling with sea lions and turtles. In between excursions you will have time to relax onboard and enjoy informative lectures from your guide.

Itinerary

DAY 1: Fly to the Galapagos Islands

AM: Arrive Baltra airport You will arrive at Baltra airport in the morning. After passing through immigration and baggage claim, you will be met by a Horizon staff member and transferred to the Trimaran. You will be shown to your cabin where you will have some time to settle in before lunch and a welcome briefing. PM: Bartolome Island Bartholome is an extinct volcano with a variety of red, orange, black, and even green volcanic formations. It is home to the famous Pinnacle Rock. A stairwell leads to the volcano's summit, which offers one of the best views of the islands. The beach is ideal for snorkeling and possible Galapagos penguin sightings.

Departure

Selected Tuesdays

Duration

5 Days Rabida Island & Puerto Egas

Locations

Ecuador, Galapagos Islands, South America

~~AM: Rabida Island~~ Rabida Island (Jervis) is a great snorkeling spot and one of the archipelago's most colorful and volcanically diverse islands. Its famous maroon sandy beach and stunning lookouts provide breathtaking scenery. The island is a birdwatcher's paradise. Some of the rarest species, such as nine varieties of finches, large-billed flycatchers, Galapagos hawks, and brown pelicans, are plentiful. PM: Puerto Egas Egas Port, also known as James Bay, is home to the curious Galapagos hawks and the quick-footed Galapagos lava lizards. The trail leads to a coastline with beautiful tide pools and fauna-filled grottos. The Galapagos fur sea lions sunbathe here. This is also an excellent snorkeling location

DAY 3: Genovesa Island

AM: Darwin Bay This white sand coral beach leads to a half-mile (0.75km) trail that winds through mangroves teeming with land birds. Here you can see Nazca boobies, red-footed boobies, and swallow-tailed gulls. Tidal pools with playful sea lions can be found further down the path. At the end, there is a breathtaking view from a cliff. PM: El Barranco El Barranco's steep, rocky paths, also known as Prince Phillip's Steps, lead up to a high cliff-face. From here, you can enjoy a spectacular view. Palo santo vegetation can also be found here, as well as red-footed boobies, short-eared lava owls, Galapagos swallows, and Galapagos doves.

Departure

Selected Tuesdays
Day 4: Mosquera islet & Tortoise breeding

Duration

5 Days

Location Mosquera islet This reef of rocks and Ecuador, Galapagos Islands, South America
Ecuador (the result of an uprising) is only 100

meters across at its narrowest point, located between the islands of Baltra and North Seymour. This island is home to many shorebirds and has one of the largest populations of sea lions. There have been reports of orcas feeding on sea lions at this location on occasion. PM: Tortoise breeding center The Charles Darwin Research Station is home to turtles ranging from 3-inches (new hatchlings) to 4-feet long. Subspecies of turtles interact with one another and many of the older turtles are accustomed to humans stretching out their heads for a photo opportunity. The babies are kept until they reach the age of four and are strong enough to survive on their own.

DAY 5: Depart Galapagos Islands

AM: North Seymour Island North Seymour Island is teeming with Galapagos sea lions, blue-footed boobies, and magnificent frigatebirds. The island was formed by a series of submarine lava flows with sediment layers that were uplifted by tectonic activity. The island is characterized by its arid vegetation zone. PM: Transfer to Baltra airport In the afternoon, you will be transferred to the Baltra airport in time for your flight back to the mainland.

Inclusions & Details
