Departure

Introduction

With featured guest Sue Flood, British Photo Ambassador.

Go to ninety degrees north! The greatest expeditions have been attempting to reach the North Pole periodically since the 16th century. This legendary destination both draws and inspires adventurers and dreamers who are looking to explore the other side of the globe.

Accompanying Frederick Cook, Robert Edwin Peary, and Roald Amundsen, who were among the the many who battled to accomplish this impossible objective, you will be one of the select few who attempt to complete the the journey, situated 700 km (435 miles) away from any land.

You will sail the waters near our planet's edge in a northerly direction from Spitsbergen, seeing scenery that changes constantly due to the shifting ice and light. Here, the natural world is in charge, conserving amazing species that you could be fortunate enough to encounter as your voyage goes on, such whales, seals, and polar bears! As you make your way towards the North Pole—the Holy Grail of all polar explorers—you will continue to explore this isolated, freezing realm!

The ice floe is continually drifting due to the winds and currents, and your ship's captain will move cautiously and humbly in an effort to reach the planet's northernmost point.

-Please note 11 August 2026 departure is 17 days - contact us for details-

DAY 2: At sea along Spitsbergen

The largest island in the Svalbard archipelago, its name meaning “pointed mountains” in German, Spitsbergen is the last piece of land before the Arctic ice floe.

Aboard your ship, you will sail along the extremely spectacular coastline of this icy land. Between millennial glaciers and rugged mountains, you will discover a jagged coastline, hollowed-out by fjords. A unique setting, the refuge of a particularly rich avifauna, offering you the possibility of taking fabulous photographs from the deck of your ship.

The Arctic - The Geographic North Pole 2026 | Le Commandant Charcot

ACPOPNP

Departure

27/07/2026; 27/08/2026

Duration

16 Days

Enjoy an absolutely unique experience of sailing to the heart of the ice floe, this vast expanse of virgin, immaculate ice. The landscapes are constantly changing, shifting from a smooth, flat wilderness to a chaos of ice, then to channels of open water. Your ship will sail along these naturally open channels and through the areas where the frozen layer is thinnest, offering you the chance to experience magic maritime moments in the midst of drifting sea ice. It will also often be an opportunity to see a particular kind of fauna, totally dependent on the ice floe.

DAY 8: Geographic North Pole

Defined by a 90° North latitude, the Geographic North Pole lies on the Earth's rotational axis, at the intersection of all meridians. Plunged into darkness for six months of the year, then lit by the sun for the following six months, this mythical site, permanently covered in ice and remote from any land, has fascinated generations of explorers. So far, only a very few people have ever reached it: an exploit which is now accessible to you aboard Le Commandant Charcot.

Departure

27/07/2026; 27/08/2026

Days 9 to 13

16 Days

Expectations Experience once again the absolutely unique journey of sailing to the heart of the ice floe, exploring this vast expanse of untouched, immaculate ice. The landscapes continually evolve, transitioning from a serene, flat wilderness to a captivating chaos of ice, and then to expansive channels of open water. Your ship will gracefully navigate along these naturally open channels and traverse areas where the frozen layer is thinnest, providing another chance to immerse yourself in magical maritime moments amidst drifting sea ice. This presents yet another opportunity to observe a specific type of fauna, entirely dependent on the ice floe.

DAY 14: At sea along Spitsbergen - Days 14 to 15

The largest island in the Svalbard archipelago, its name meaning “pointed mountains” in German, Spitsbergen is the last piece of land before the Arctic ice floe. Aboard your ship, you will sail along the extremely spectacular coastline of this icy land. Between millennial glaciers and rugged mountains, you will discover a jagged coastline, hollowed-out by fjords. A unique setting, the refuge of a particularly rich avifauna, offering you the possibility of taking fabulous photographs from the deck of your ship.

ACPOPNP

Departure

27/07/2026 - 27/08/2026

Duration

16 Days

Arrive early morning in Longyearbyen and

embark around 8am. Longyearbyen is the

capital of the Norwegian Svalbard

archipelago, located on Svalbard's main

island, and is the northernmost territorial

capital on the planet. With winter

temperatures dropping to below 40°C, the

landscapes of this mining town are simply

breathtaking. The glaciers, the mountains

stretching as far as the eye can see and the

untouched nature, make you feel like you're

in completely unexplored territory.

Inclusions & Details

Accommodation

Cabin on board a ship

INCLUSIONS

Cabin accommodation whilst on board Le Commandant Charcot

Flight Paris/Longyearbyen on Embarkation Day

Group transfer from airport to the pier for embarkation

Meet & greet at the airport by our local English-speaking representative.

All meals whilst on board including snacks

Open Bar (excluding premium brands)

Room Service & Mini Bar (excluding Champagne)

Scheduled landings and excursions, conditions permitting

Guiding and lectures by expedition team
