

Antarctica - Falklands, South Georgia & Antarctica from Puerto Madryn | Plancius

Trip Code
ACOWFSGP
Departure

Introduction

This unforgettable 21-day Antarctic expedition includes the best highlights of this polar regions. You'll discover the Falkland Islands, the wildlife-rich South Georgia, and the stunning landscapes of the Antarctic Peninsula. This expedition is designed for nature enthusiasts with a focus on the needs of photographers.

Photography Special Tour:

This voyage is ideal for photographers interested in wildlife-rich locations, the world's most spectacular landscapes, and adventure. Timed early in the season for pristine snowscapes and soft light with greater chances of taking advantages of sunrise and sunset lighting conditions. The unpredictable and fast changing weather can create dramatic images.

Expect to see albatrosses, penguins, seals, whales, and possibly Southern Elephant Seal beachmasters, providing endless photographic opportunities. Extended landing times allow photographers to capture masterpieces in optimal light conditions. The team includes expert Zodiac drivers who understand photographers' needs and provide guidance at crucial moments. At sea, there will be photographic tutorials, image reviews, editing sessions, and lectures on wildlife, geography, and history to ensure you can capture this incredible destination with real insight.

Itinerary

DAY 1: Embarkation in Puerto Madryn

You embark from Puerto Madryn in the afternoon, your prow aimed for the Falkland Islands. Golfo Nuevo is renowned for its visiting southern right whales, so you have a good chance of spotting one as you sail toward the open ocean.

Antarctica - Falklands, South Georgia & Antarctica from Puerto Madryn | Plancius

ACOWFSGP

Departure

24/10/2026, 02/11/2027

Duration

21 Days At Sea - Day 2 & 3

Locations

Antarctic Peninsula, South Georgia, Falkland Islands

One special moment here. Several species of bird follow the vessel southeast, such as albatrosses, storm petrels, shearwaters, and diving petrels.

DAY 4: Falkland Islands

The Falkland (Malvinas) Islands offer an abundance of wildlife that is easily approachable, though caution is always advised. These islands are largely unknown gems, the site of a 1982 war between the UK and Argentina. Not only do various species of bird live here, but chances are great you'll see both Peale's dolphins and Commerson's dolphins in the surrounding waters. During this segment of the voyage, you may visit the following sites: Steeple Jason - Home to the world's largest black-browed albatross colony (roughly 113,000), Steeple Jason is a wild and rarely visited island buffeted by wind and waves. Weather and swell conditions dictate the journey here. Carcass Island - Despite its name, this island is pleasantly rodent-free and hence bounteous with birdlife. Anything from breeding Magellanic penguins and gentoos to numerous waders and passerine birds (including Cobb's wrens and tussock-birds) live here. Saunders Island - On Saunders Island you can see the black-browed albatross and its sometimes-clumsy landings, along with breeding imperial shags and rockhopper penguins. King penguins, Magellanic penguins, and gentoos are also found here.

Antarctica - Falklands, South Georgia & Antarctica from Puerto Madryn | Plancius

Departure

24/10/2026 - 02/11/2027

Duration

21 Days of the Falklands and center of

its culture. Port Stanley has some Victorian-

era charm: colorful houses, well-tended

gardens, and English-style pubs are all to be

found here. You can also see several

century-old clipper ships nearby, silent

witnesses to the hardships of 19th century

sailors. The small but interesting museum is

also worth a visit, covering the early days of

settlement up to the Falklands War.

Approximately 2,100 people live in Port

Stanley. Admission to the museum is

included.

DAY 6: At Sea - Day 6 & 7

En route to South Georgia, you now cross

the Antarctic Convergence. The

temperature cools considerably within the

space of a few hours, and nutritious water

rises to the surface of the sea due to

colliding water columns. This phenomenon

attracts a multitude of seabirds near the

ship, including several species of albatross,

shearwaters, petrels, prions, and skuas.

Departure

24/10/2026 - 02/11/2027

DAY 9: South Georgia Journey - Day 8 to 11

Duration

7 Days

Locations: Please keep in mind that weather conditions in this area can be challenging, largely dictating the program.

Sites you might visit include: Salisbury Plain, St. Andrews Bay, Gold Harbour - These sites not only house the three largest king penguin colonies in South Georgia, they're also three of the world's largest breeding beaches for southern elephant seals. Only during this time of year do they peak in their breeding cycle. Watch the four-ton bulls keep a constant vigil (and occasionally fight) over territories where dozens of females have just given birth or are about to deliver. You can also see a substantial number of Antarctic fur seals here during the breeding season (December - January). Fortuna Bay - A beautiful outwash plain from Fortuna Glacier is home to a large number of king penguins and seals. Here you may also have the chance to follow the final leg of Shackleton's route to the abandoned whaling village of Stromness. This path cuts across the mountain pass beyond Shackleton's Waterfall, and as the terrain is partly swampy, be prepared to cross a few small streams. Grytviken - In this abandoned whaling station, king penguins walk the streets and elephant seals lie around like they own the place - because they basically do. Here you might be able to see the South Georgia Museum as well as Shackleton's grave. In the afternoon of day 11 and depending on the conditions, we will start sailing southwards in the direction of the South Orkney Islands.

DAY 12: At Sea

There may be sea ice on this route, and at the edge of the ice some south polar skuas and snow petrels could join the other seabirds trailing the vessel south.

Departure

24/11/2026 - 02/11/2027

Duration

21 Days

Locations

Visit Orcadas Base, an Argentine scientific station on Laurie Island in the South Orkney Islands

Antarctic Peninsula, South Georgia, Falkland Islands

archipelago. The personnel here will happily

show you their facility, where you can enjoy

expansive views of the surrounding glaciers.

If a visit isn't possible, you may instead land

in Signy Island's Shingle Cove.

DAY 14: At Sea - Day 14 & 15

Enormous icebergs and a fair chance of fin whale sightings ensure there's never a dull moment on this last sea voyage south. Also, your best chance to spot Antarctic petrels is here. Depending on conditions, we aim to begin activities the afternoon of day 15.

Departure

24/10/2026 - 02/11/2027
DAY 05 - Antarctica & The Weddell Sea - Day

Duration

21 Days

If the conditions permit, you now sail into the Weddell Sea. Here, colossal tabular icebergs herald your arrival to the eastern side of the Antarctic Peninsula. Paulet Island, with its large population of Adélie penguins, is a possible stop. You might also visit Brown Bluff, located in the ice-clogged Antarctic Sound, where you could get the chance to set foot on the Antarctic

Continent itself. If conditions aren't favorable to enter the Weddell Sea from the east, the ship will set course for Elephant Island and head into the Bransfield Strait, between the South Shetland Island's and the Antarctic Peninsula. The volcanic islands of the South Shetlands are windswept and often cloaked in mist, but they nonetheless offer many subtle pleasures. A wide variety of flora (mosses, lichens, flowering grasses) and fauna (gentoo penguins, chinstrap penguins, southern giant petrels) live here. On Half Moon Island, Chinstrap penguins and Weddell seals often haul out onto the beach near Cámara Base, an Argentine scientific research station. On Deception Island, the ship plunges through Neptune's Bellows and into the flooded caldera. Here you can find an abandoned whaling station, and thousands of cape petrels. A number of kelp gulls, brown skuas, south polar skuas, and Antarctic terns can be spotted too. Wilson's storm petrels and black-bellied storm petrels also nest in the ruins of the whaling station in Whalers Bay. As an alternative, you can take part in activities near Telefon Bay, further inside the caldera. This extended voyage gives you the chance to sail even farther down the icy coast of the western Antarctic Peninsula. There are several opportunities for great landings where you might set foot on the Antarctic Continent, surrounded by an epic landscape of alpine peaks and mammoth glaciers calving at sea level. Gentoo penguins, leopard seals, Weddell seals, humpback whales, and minke whales are often seen here. The breathtaking scenery continues in the Bransfield Strait and, if conditions allow further South in the Gerlache Strait. Conditions on the Drake Passage determine the exact time of departure.

Departure

24/10/2026, 02/11/2027

Duration

21 Days At Sea - Drake Passage - Day 19 &

Locations

Antarctic Peninsula, South Georgia, Falkland Islands

Your return voyage is far from lonely. While crossing the Drake, you're again greeted by the vast array of seabirds remembered from the passage south. But they seem a little more familiar to you now, and you to them.

DAY 21: Disembark in Ushuaia

You arrive and disembark in Ushuaia, commonly held to be the world's most southern city. It is located on the Tierra del Fuego archipelago, nicknamed the "End of the World." But despite this stopping point, the wealth of memories you've made on your Antarctic expedition will travel with you wherever your next adventure lies.

Inclusions & Details

Accommodation

Cabin on board a ship

INCLUSIONS

Cabin Accommodation on board MV Plancius

All meals throughout the voyage aboard the ship including snacks, coffee and tea

All shore excursions and activities throughout the voyage by Zodiac

Program of lectures by noted naturalists and leadership by experienced expedition staff

Free use of rubber boots and snowshoes

Group departure transfers in Ushuaia (directly after disembarkation)

All miscellaneous service taxes and port charges throughout the programme

Comprehensive pre-departure material

Inclusions

EXCLUSIONS

Airfares to/from disembarkation city

Visa & passport fees (if applicable)

Travel insurance

Beverages (other than tea & coffee)

Meals ashore

Personal expenses such as laundry, bar, & on-board communication

Gratuities for the crew (guidelines will be provided)

Pre and post land arrangements

Government arrival or departure taxes (if applicable)

Additional optional activities

Difficulty Rating

2 (light adventure)
