The remote and sparsely-populated Falkland

Islands are a birders' paradise. The

Falklands, South Georgia

Falklands, are also a great place to observe

marine mammals. The waters around the

archipelago are home to cetaceans such as

Peale's dolphins and Commerson's dolphins.

Our exact route and exploration

opportunities are dependent on weather

among these isolated and windswept

islands. We also intend to visit the port of

Stanley, the charmingly British capital of

the Falkland Islands. Attractions within

pleasant walking distance along the

waterfront promenade include the Falkland

Islands Museum, the governor's house, a

cathedral with impressive whalebone arch

outside, a war memorial, quality gift shops,

pubs, and views of shipwrecks in the

harbor.

## DAY 6: Southern Ocean - Day 6 & 7

From the Falkland Islands we head east

toward South Georgia, passing the remote,

seabird-covered pinnacles known as Shag

Rocks on the way. We also cross the

Antarctic Convergence, the biological

boundary of the Southern Ocean. Briefings,

bio-security procedures, and lectures from

our staff prepare you for our arrival in

South Georgia.

Falklands, South Georgia

Opportunities in South Georgia are heavily dependent on the weather conditions we encounter. Our experienced captain and expedition leader decide the itinerary and continually adjust plans as conditions and opportunities warrant. You can be sure that the best possible advantage will be taken of the circumstances presented to us by nature in this wild and remote corner of the world.

We take every safe opportunity to go ashore in this amazing place. South Georgia is a scenic wilderness and an unrivaled paradise for subantarctic wildlife viewing. The islands are said to host upwards of 100 million seabirds, including numerous species of albatross, penguins, prions, petrels and terns. On beaches such as those at Salisbury Plain and St. Andrews Bay, over 100,000 elephant seals and three million fur seals jostle for space among innumerable penguins including stately king penguins and sprightly macaroni penguins. The recently completed rat eradication program is sure to make this wilderness even more pristine and rich with birdlife. The bountiful waters surrounding South Georgia are also inhabited by an increasing number of whales. The historical whaling station of Grytviken is now home to the excellent South Georgia Museum managed by the South Georgia Heritage Trust. Grytviken is also the final resting place of Ernest Shackleton, the legendary polar explorer. Our days in South Georgia are filled with memorable excursions, sumptuous meals, presentations by our experts, and enough incredible scenery and wildlife to fill your camera and overwhelm your emotions.
