Departure

Introduction

Embark on an unforgettable wildlife expedition in the High Arctic, exploring Spitsbergen's rugged landscapes. Starting from Longyearbyen, you'll leave behind its colourful wooden homes and sail past white-striped mountains rising from deep blue waters. The changing Arctic weather and polar light create a dynamic backdrop as Arctic fulmars accompany the ship and the first ice appears.

Encounter immense glaciers, observe black-legged kittiwakes and Arctic terns, and appreciate nature's power and fragility. On land, traverse the tundra's moss and lichen-covered terrain, home to Svalbard reindeer, Arctic foxes, and walrus. Keep an eye out for polar bears, guided by a team of naturalists who will help you spot the region's elusive wildlife, making each sighting a thrilling experience.

PLEASE NOTE: The departures 18 July 26, 25 July 26, 17 July 27, 24 July 27, and 31 July 27 operate in reverse. Please contact us for more details.

Departure

DAY 1: Fly Paris to Longyearbyen & Embark
 13/06/2026, 20/06/2026, 27/06/2026, 11/07/2026, 18/07/2026, 25/07/2026, 12/06/2027, 19/06/2027, 26/06/2027, 03/07/2027, 10/07/2027, 17/07/2027, 24/07/2027, 31/07/2027

Duration - Our flight will take you from Paris to Longyearbyen, where you will then embark from 4:00 pm to 5:00 pm, and depart at Spitsbergen 00 pm. Longyearbyen is the capital of the Norwegian Svalbard archipelago, located on Svalbard's main island, and is the northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory.

DAY 2: South West Region of Spitsbergen:

Days 2-3

Set sail for southwest Spitsbergen, immerse yourself in this environment unlike any other and explore its unexpected riches. In this natural sanctuary, the polar light combines with the changing weather of the Arctic, a big blue sky, the horizon scattered with clouds, the enveloping mist erasing the border between the land and the sea. Follow in the footsteps of the first explorers and admire the majestic fjords and glaciers sculpting the breathtaking landscapes, their icy waters shimmering beneath the midnight sun. The fjords, veritable cathedrals of ice, reveal their millennial secrets, while the glaciers, like sleeping giants, move slowly towards the sea, setting free sparkling icebergs. On the water, you might spot belugas and rorquals, while on the shores, seals and Arctic foxes add a touch of mystery to this living tableau, where the steep cliffs become breeding grounds for thousands of seabirds, like guillemots. Southwest Spitsbergen is an ode to nature in its rawest and purest form.

Duration Your captain will sail right up to the limit of

8 Days the ice, to the edge of the ice floe. Weather

Locations and state of the ice allowing, you

Spitsbergen will be able to go out in a zodiac dinghy for

a unique experience in the middle of these

floating slabs of ice. In addition to this

grandiose journey through the middle of

these floes with their cut and blue-tinged

edges, sometimes over 2 metres thick, it is

also often an opportunity to see a particular

kind of fauna, totally dependent on the ice

floe: birds, seals and polar bears.

DAY 5: North-West Region of Spitsbergen:

Days 5-6

A kingdom of contrasts and natural marvels

dotted with islands and peninsulas,

northwest Spitsbergen fascinates with its

preserved beauty. On these pristine lands,

infinity unveils itself, treating the eyes to

beauty sculpted by nature and enhanced by

the changing light. The fjords bathed by icy

waters, the jagged mountains and the

imposing glaciers stand majestically before

you, like monumental sculptures. In these

lands, where souls are filled with deep

serenity, only the murmur of broken ice,

bearing mysteries and legends, disturbs the

calmness. Aboard our Zodiacs and in the

company of naturalist-guides, get as close

as possible to this unique fauna and

discover this centre for scientific expedition

departures. In the distance, majestic whales

glide silently through the glacial waters,

whereas seals, walrus and Arctic foxes add

a playful touch of life. As Svalbard reindeer

wander the vast expanses, Arctic terns liven

up the polar sky with their gracious flight

and polar bears, which you may be lucky

enough to see, patrol magnificently along

the icy shores.
