There is nowhere else in the world like the
Brazil, Uruguay, Falkland Islands, South Georgia & Antarctica
Falkland Islands. This archipelago is a

remote, wind-swept place of stunning
landscapes, dazzling white sand beaches,
magnificent wildlife, and a rather
gregarious mix of people. Over 200 islands
surround the two main islands of West and
East Falkland. These isolated and treeless
shores are home to an overwhelming
abundance of birdlife: albatross, penguins,
caracaras, geese, and many others. Perhaps
it was the very remoteness of the islands;
the allure of its barren landscapes, pure in
their austerity and colorful in their details,
and the immensely large open skies that
attracted settlers to its shores long ago, the
islands have accumulated a wealth of
maritime and military history. More than
three hundred shipwrecks litter its shores,
while the stark white crosses of both British
and Argentine soldiers stand as a silent
reminder to the war of 1982. Numerous
claims for the islands have been put forward
in the course of their history. Nowadays the
Falkland Islands are a self-governing British
Overseas Territory.

Departure

25/10/2027 Port Stanley - Falklands

Duration

26 Days The lonely lighthouse at Cape Pembroke

Locations welcomes arrivals to Stanley. It alerts ships

Brazil, Uruguay, Falkland Islands, South Georgia & Antarctica

to the treacherous rocks, reefs and shoals

for which the Falkland Islands have long

been known. With a population of over

2,000 people, Stanley is the largest

settlement on the islands. Its gardens, tea

rooms, brightly colored houses and hotels

lend it a slightly Victorian feel, seemingly

suspended in time. The Anglican Cathedral,

the southernmost in the world, stands

prominently on Stanley's waterfront. The

Falklands' unique abundance of wildlife is

evident in Stanley. Dolphins visit its harbor,

while steamer ducks, kelp gulls, and other

birds abound on shore. Southern sea lions

can be spotted basking in the sun. Southern

giant petrels often fly through town,

oblivious to the human presence. Founded

in the 1840s, the town was named after

Edward Smith-Stanley, Earl of Derby, who

never visited the islands.

Duration

26 Days

The South Georgia Islands Group, one of the
Brazil, Uruguay, Falkland Islands, South Georgia & Antarctica
least visited destinations on earth, is a gem
in the heart of the sub-Antarctic.

Comprising of South Georgia Island and its
smaller surrounding islands and rocks, this
untouched paradise houses a rich tapestry
of wildlife, thriving in a climate that is as
harsh as it is beautiful. Despite the presence
of ice and snow, these islands are
remarkably green, their vegetation a stark
contrast to the icy expanses of Antarctica.
This is a Lost Eden where nature reigns
supreme, teeming with an array of wildlife
that includes vast colonies of king and other
penguin species, fur and elephant seals,
albatrosses, giant petrels, and other
seabirds. Offshore, whales, orcas, and
dolphins thrive in the nutrient-rich waters,
making this the most diverse marine
ecosystem on earth. Your journey through
the South Georgia Islands Group is carefully
curated by your Expedition Leader based on
local conditions and wildlife reports. You'll
venture to historic communities like
Grytviken, visit the sprawling breeding
colony of king penguins on Salisbury Plain,
and explore the rarely-visited, lesser-known
sites nature allows.
