

## The Arctic - Expedition Svalbard | MS Stockholm

Trip Code  
ACPQTHES  
Departure

### Introduction

Explore Svalbard on the MS Stockholm, and embark on a scenery packed Arctic expedition to see the iconic polar bear in it's natural habitat, along with much more wildlife.

Summer officially begins at the beginning of July. The midnight sun reigns supreme, and the mountains are adorned with purple saxifrage. Fantastic opportunities to see the infrequently visited eastern parts of the archipelago are presented by the thawing of the ice around the islands. With the opening of additional snow-free areas and the increasing number of whales in these waters, longer hikes are becoming possible. Autumn arrives in late August, when the landscape is most pronounced without snow. The midnight sun is skimming the horizon in anticipation of the frigid night, giving us breathtaking sunsets and a warm glow that is perfect for photography.

### Itinerary

DAY 1: Arrival in Longyearbyen

We arrive in Longyearbyen and transfer to our hotel.

Duration

12 Days

Locations

Svalbard & The Arctic

Explore Longyearbyen on your own before meeting up with your fellow travellers and guides for lunch. In the afternoon we board the expedition ship and sail out through the spectacular Isfjorden - the Arctic expedition has begun! We are now in a part of the world where we are completely dependent on the ice and weather conditions. Our exact itinerary will depend on these factors and on the wildlife we encounter. Our aim is to head out on Zodiac cruises every day and to go ashore when the opportunity arises. Here are some examples of places we may visit: Northwest Spitsbergen The scientific village of Ny-Ålesund is located in Kongsfjorden. It was from here that Amundsen and Nobile started their heroic expeditions to the North Pole. Two other courageous attempts to reach the North Pole started on the island of Danskøya. The Swedish explorer Andrée made an attempt with a hydrogen balloon, and the American journalist Wellman started with an airship. Interesting remnants of these expeditions can still be seen here. Magnificent fjords Svalbard offers visitors countless spectacular fjords. During our journey we will explore some of them such as: Liefdefjorden, meaning "The fjord of love", is lined with snow-capped mountain peaks and here we hope to cruise along the face of the spectacular Monaco Glacier. Many common eiders and pink-footed geese nest in the area. In Krossfjorden we revel in the beautifully sculpted front of the 14th of July Glacier and are greeted by the many kittiwakes and Brünnich's guillemots that nest on the nearby cliffs. Raudfjorden is an area of immense natural beauty - dominated by magnificent glaciers. It is also a favourite haunt of seals and the bird cliffs are abuzz with activity. Hinlopen Strait and Alkefjellet Ice conditions permitting, we enter the Hinlopen Strait. Here we find Alkefjellet, an impressive basalt cliff that is home to an estimated 200 000 Brünnich's guillemots. We may also continue into the beautiful bay of Palanderbukta on Nordaustlandet. Eastern Svalbard The island of Nordaustlandet is covered by a huge ice cap and has fascinated naturalists and historians alike. Here the giant glacier Bråsvellbreen stretches for 180 kilometres! The 15-20 metre high ice edge is punctuated by hundreds of waterfalls. Barentsøya and Edgeøya offer magnificent scenery and vast tundra. There is a good chance of seeing walrus, arctic fox and Svalbard reindeer. Southwest Spitsbergen The grand fjords of Hornsund offer spectacular glaciers and a breathtaking landscape of towering mountain peaks, often reaching above the clouds. On a clear day you can see the summit of the highest mountain, Hornsundtind, at 1431 meters. Hornsund is a favourite haunt of some of Svalbard's polar bears and bearded seals can often be seen resting on the fjord ice.

DAY 12: Disembarkation in Longyearbyen

12 Days

**Locations**  
Early in the morning, we disembark from our expedition ship and begin our journey back home. Please note: All itineraries are for guidance only. Our exact route will depend on the ice, weather conditions, wildlife and government regulations. The places mentioned are just examples of some of the many sites Svalbard has to offer. We always strive to maximise your experience. Please remember that flexibility is the key to a successful expedition!
