You'll cruise around this magical island on a

constant search for wildlife. Your expedition

will cover western Spitsbergen as well as

stunning fjords and outlying islands to the

north. From polar flora to immense glaciers,

the natural landscape here is just as varied

as the wildlife. Each expedition presents

new opportunities and different weather

and ice, so there is no fixed itinerary;

however, some of the places we may visit

include the 14th of July Glacier,

Smeerenburg, Alkefjellet and the Hinlopen

Strait. The destinations visited will be

selected for optimum wildlife viewing with

an appreciation of the history and geology

of Spitsbergen. The island offers multiple

opportunities for wildlife photography.

Spotting polar bears is more likely here

than almost anywhere else, as the Svalbard

archipelago is one of their preferred

hunting areas. The towering cliffs of

Alkefjellet provide homes to thousands of

Brünnich's guillemots (thick-billed murre).

Coming across a walrus haul-out is a

moment you won't soon forget. These giant

pinnipeds of the Arctic create quite a noisy

scene as each walrus vies for a choice spot

of coastline. If you're itching to experience a

more intimate view from the water, you can

book the sea kayaking or paddling excursion

adventure options. In Spitsbergen, there is

no shortage of natural beauty. The tundra

can be surprisingly colourful in summer,

with wildflowers bursting for a taste of

sunshine. Each day, you'll see something

interesting, whether it is unique arctic

wildlife a polar bear resting between hunts,

or abandoned sites from centuries ago.
