Your Antarctic adventure begins once you have left the Drake Passage behind and the South Shetland Islands are visible. This

region has long captured the attention of explorers. Every visit to Antarctica reveals something unexpected or new, meaning your expedition will be unlike any other - a unique and personal experience. During your time aboard the Ocean Nova, your Expedition Team and Captain will scout for whales and seabirds and alert you to any new sightings. Enjoy in-depth explanations and lectures from your Expedition Team on the region's glaciology, history and wildlife as you explore. Daily Zodiac cruises and shore excursions take you to explore local bays, channels and landing sites, with wildlife opportunities always in your Expedition Team's mind - your first land excursion will be something you will never forget! Walk on beaches dotted with penguins, visit penguin rookeries and search for southern seal species, including the fearless penguin eater, the leopard seal. Each day and each landing is different, but every day presents new photo opportunities and sightings, so it won't take long until you know the difference between an Adelie, gentoo and chinstrap penguin. You might hike to a penguin rookery one day and take a Zodiac cruise among towering icebergs the next. From coming eye to eye with a humpback whale to the sound of a calving glacier, you will wake up excited each day with a desire to explore this icy wilderness. And if you can't get enough and find yourself wanting more, treat yourself to an overnight ice camping experience on land, a snowshoeing excursion to explore further afield, or a hit the water for a day paddle excursion. You'll also have the chance to take a polar plunge off the Ocean Nova - a quick dive into Antarctica's icy waters that's sure to leave you feeling refreshed and invigorated! An typical expedition day begins with a wake-up call from your Expedition Leader around 7.00 am. This gives you time to prepare for the day before joining your fellow expeditioners for breakfast in the dining room. Weather permitting, you can look forward to at least two excursions each day, offering ample opportunities to immerse yourself in the stunning Antarctic landscape. On board the Ocean Nova, you can savour delicious meals in the dining room and stay engaged in fascinating daily lectures led by our expert team.
