DAY 5 - The Weddel Sea Exploration

Duration

20 Days

Impassable, extreme and captivating: this is

the best way to describe the Weddell Sea,

Argentina, Falkland Islands, South Georgia, Antarctic Peninsula, Antarctica

much of which is covered by a layer of thick,

densely packed ice. It is a challenge and a

privilege to sail upon this sea. Polar

exploration finds its full meaning here.

Heading towards the South is a real quest,

with the promise of highly-charged

encounters with the continent's endemic

fauna. This is the kingdom of the emperor

penguin, the largest penguin in the world,

renowned for its elegance. Unlike other

penguins that live on the rocks, the emperor

nest on the ice floe which it needs for its

reproductive cycle. It is therefore on the ice

floe that you will be able to observe it

walking around with its characteristic gait.

In this southern sea, where the ice changes

and is transformed constantly, there is

never any monotony. The new reliefs and

new colours ensure never-ending

wonderment. You will sail into the heart of

the immaculate ice floe, which is dislocated

or densely packed, into an alley of icebergs.

Among them are immense blocks of ice,

tabular icebergs, that drift and illuminate

the ocean with their cerulean blue haloes.

Aboard, on shore, on the ice, you will be as

close as possible to the colonies of Adelie

penguins, Weddell seals, Mink whales,

orcas, snow petrels.... With a little luck, you

will get a glimpse of a rare Ross seal with

its silver pelage or of emperor penguins,

waddling along the edge of the ice floe. A

sight that is as fascinating as it is emotional.

DAY 6 - Antarctic Peninsula

Duration

20 Days

Succumb to the magic of a place unlike any

other. On this day, the mythical Antarctic

Peninsula still holds real fascination and

promises its visitors unforgettable moments.

Throughout your adventure in this icy realm, you will find yourself in the heart of a spectacular decor in subtle shades of blue and white, surrounded by exceptional wildlife. Penguins, humpback whales, seals and giant petrels are at home here, as are elephant seals, fur seals, Antarctic minke whales, and orcas. Depending on which sites you will be lucky enough to visit, you may get the chance to observe them and share with them the beauty of these extreme parts. Each day, based on ice conditions, the Captain and the Expedition Leader will suggest zodiac outings or landings to discover the infinite riches of the Antarctic Peninsula. Glaciers, ice floe, tabletop icebergs, mountain peaks that plunge straight into the sea, volcanic beaches, research stations, enchanting bays, and vestiges of the whaling industry: these are the faces of the Antarctic that will likely reveal themselves to you, in a hushed and surreal atmosphere. You will sail in the wake of Jean-Baptiste Charcot, Adrien de Gerlache and Sir Ernest Shackleton, great Antarctic explorers who, from the 19th century, set out to conquer these remote and uninhabited lands.

DAY 14: Port Stanley

Situated at the far eastern end of the Falklands' largest island, Port Stanley, is the capital of this remote archipelago in the South Atlantic, composed of nearly 700 islands and islets. In 1764, Louis Antoine de Bougainville settled the first pioneers here and the port grew rapidly. Placed under the Spanish crown in 1767, then under British sovereignty since 1833, the town has retained some South American features fused with the Victorian style that punctuate the city, and the houses with their colourful roofs brighten the moorland landscapes with their windy and harsh climate reminiscent of the Scottish islands of Orkneys or Shetland. In front of the Cathedral, built in 1933, an arch made of whale jaw bones reminds us that Port Stanley was once a whaling port.

You will be able to follow the narrow strip of land formed by the isthmus for a few kilometres, to reach the Valdes Peninsula nature reserve, a UNESCO World Heritage Site. Its microclimate, protected from the extreme conditions of the Southern Atlantic, makes this an ideal breeding ground for southern right whales in winter, but also for southern elephant seals, southern sea lions, and orcas. You may get the chance to spot numerous birds, Magellanic penguins, guanacos and Patagonian maras living in this desert steppe.

America. Nicknamed "the Little Paris of

South America", the Argentine capital is a

clever blend of architecture with European

influences and a joyful Latin American

atmosphere. Designed on an orthogonal

grid plan, it has 48 districts, all of which are

as charming as they are different, with a
