

Antarctica - Antarctic Marine Mammals: World of Whales & Seals | World Voyager

Trip Code

ACQEAMMV

Departure

Introduction

Experience the thrill of exploring the Antarctic Peninsula on this 11-day adventure. Sail through the historic Beagle Channel and cross the legendary Drake Passage, where you'll witness the nutrient-rich waters teeming with marine life. As you reach the Antarctic Peninsula, enjoy Zodiac excursions, spotting whales, seals, and penguins in their natural habitats. Engage in citizen science projects, using hydrophones to listen to whale vocalizations and contributing to marine mammal research. The journey also includes visits to the South Shetland Islands, where you'll encounter massive elephant seals and explore historic sites. Throughout the voyage, you'll have opportunities to learn from leading marine mammal scientists and participate in conservation efforts, making this expedition both educational and unforgettable.

Itinerary

DAY 1: Arrive Buenos Aires, Argentina

Upon arriving in this fascinating South American city, known for its vibrant Argentinian culture, European architecture and cosmopolitan vibe, you will independently transfer to your pre-expedition hotel night, included in the Charter Flight and Hotel Package.

Antarctica - Antarctic Marine Mammals: World of Whales & Seals | World Voyager

ACQEAMMV

Departure

05/03/2027 - 03/03/2028

Duration

11 Days

After an early breakfast at the hotel, the

group will transfer to the airport and board

our private charter flight to Ushuaia,

Antarctica, Antarctic Peninsula

Argentina. Upon arrival, you will be

transferred from the airport to a central

downtown location to enjoy time on your

own to explore this quaint port town before

making your way to the designated meeting

spot near the pier, where you will be

transferred to the ship for embarkation.

After a late afternoon embarkation, we will

sail along the historic Beagle Channel,

which transects the Tierra del Fuego

archipelago in the extreme south of South

America. Expect an air of anticipation as

you depart—the next time you see land,

you'll be in the remote Antarctic wilderness.

DAY 3: At Sea: Drake Passage Southbound

Crossing the 800-km Drake is considered a rite of passage for many travelers.

Traversing this legendary waterway means you'll experience the Antarctic

Convergence, where the cold, northward-flowing Antarctic waters meet the

warmer, southward-flowing water of the subAntarctic. The mixing of cold and warm

waters creates a nutrient-rich feeding ground, especially for whales and other

marine mammals. Guests are encouraged to keep binoculars close at hand—and to be

prepared for Expedition Team members to announce any whale sightings. The team of

guest scientists will be introduced early in the voyage. Ari Friedlaender, who co-

developed this itinerary, and members of his team from the Friedlaender Lab, are global

authorities on the underwater behavior and ecology of marine mammals, particularly

whales. Guests will also meet a research associate with the Happywhale platform,

which enables citizens to upload their whale photos to help identify species and, possibly,

individual whales. (See bios, page 13).

Departure

05/03/2027 - 08/03/2028
DAM 4: 20 Sea Sailing Towards Antarctica

Duration

The second day of your Drake Passage

Crossing is an ideal time to attend scheduled

polar presentations that will enhance your

Antarctica, Antarctic Peninsula

opportunity to visit the Science Hub on

Deck 4; an instrumental part of your

voyage. Spend time on deck watching for

whales, which increase in number as we

approach the Peninsula—and remember to

upload your whale photos to the

Happywhale platform.

Departure

05/03/2027 - 03/03/2028

Duration

The Days of this voyage maximizes opportunities to observe various whale species along the Antarctic Peninsula. After the ice recedes in October and November, the food chain begins to reestablish itself.

Whales, seals and other marine mammals are drawn to these rich feeding grounds—especially for the krill. By February and March, these creatures, which have been intensely feeding, are satiated and relaxed, making them more easier to spot. In addition to the Zodiac and paddling excursions, we plan to spend a lot of time on the outer decks and other vantage points on the ship to spot—and photograph—wildlife.

We'll spend our days in key marine mammal habitats of the Gerlache Strait and remote inner glacial bays. Over the next three days, we aim to explore whale hotspots such as Charlotte Bay, Portal Point, Graham Passage, Errera Channel, Cuverville Island, Andvord Bay, Fournier Bay and Dallmann Bay. Past whale sightings in these areas have included minke, humpback, fin, orca and the elusive, deep-diving Arnoux's beaked whale. Antarctic Marine Mammals:

The World of Whales & Seals is our only itinerary during which we'll deploy hydrophones— underwater microphones that detect and record sound below the surface. You will have opportunities—during Zodiac cruises and paddling programs—to accompany Friedlaender Lab scientists as they deploy hydrophones to monitor and study marine mammal behavior, such as the vocalizations of whales. Four scientists will accompany guests in Zodiacs, with one hydrophone shared between two groups. Speakers will enable participants to listen for and, hopefully, hear whale sounds beneath the ocean surface. Engaging with scientists who are actively collecting and collating data that can be shared in real time on the water, and, through digital visual aids, brings marine biology to life in a way that transcends the water line. This activity is also available to World Voyager guests who join the Stand-Up Paddle Boarding (SUP) program. In addition to the citizen science programming, this itinerary will also feature the wonders of Antarctica: penguins, seals, immense glaciers, snowcapped mountains, icebergs, shore landings, and the polar plunge.

Trip Code

ACQEAMMV

Departure

05/03/2027, 03/03/2028

Duration

14 Days South Shetlands

Locations

Rounding out our marine mammal

Antarctica, Antarctic Peninsula

experiences, we hope to witness southern

elephant seals in the rugged and fabled

South Shetland Islands. We'll also keep our

fingers crossed for sightings of fin whales.

We'll explore this geological and historic

archipelago while prioritizing shore

landings, which offer further opportunities

for wildlife sightings. Arriving in March

allows us the rare opportunity to potentially

explore key excursion sites such as Hannah

Point, which is deemed a Restricted Area

from early to mid-season. Massive

populations of elephant seals and southern

giant petrels make for awe-inspiring

experiences. As with any expedition, shore

landings along the coast are dependent on

favorable weather.

DAY 9: At Sea: Drake Passage Northbound

Today is the start of the journey back across

the Drake Passage. This is an excellent

opportunity to spend more time engaging

with the Friedlaender Lab scientists or

attend one of the scheduled polar

presentations.

DAY 10: At Sea: Last Sailing Day

Today is your last opportunity to visit Quark

Expeditions' new Science Hub and

contribute to citizen science that will

support marine mammal conservation

efforts. In the words of Sir David

Attenborough: "No one will protect what

they don't care about. And no one will care

about what they have never experienced."

Departure

05/03/2027 - 03/03/2028

Departure From Ushuaia & Fly to

Buenos Aires

11 Days

Locations You will arrive in Ushuaia in the morning and disembark after breakfast. Guests will be transferred to the airport for the return group charter flight to Buenos Aires.

Antarctica, Antarctic Peninsula
*Please note: Cruise itinerary is subject to change depending on weather conditions, ice conditions and other factors.

Inclusions & Details

Accommodation

Hotel & Cabin On Board Ship

INCLUSIONS

Cabin accommodation on board ship

All meals, snacks, soft drinks and juices on board throughout your voyage

Beer, standard wines & spirits, & cocktails during pre-dinner bar service, dinner & evenings

Coffee, tea and cocoa available around the clock

All scheduled landings and excursions

Guiding and lectures by experienced expedition team

Expedition parka (yours to keep)

A pair of waterproof expedition boots on loan for landings and Zodiac cruising excursions

Free WiFi

MANDATORY TRANSFER PACKAGE

One night pre transfer accommodation in a hotel in Buenos Aires with breakfast *

**(Note: The number of guests per room is the same as cabin occupancy on the ship. Due to limited availability, travelers who reserve a suite on board are accommodated in standard rooms at the hotel. Triple rooms may not be available.)*

Inclusions

Group flights from Buenos Aires to Ushuaia on a return basis

Transfers from the hotel to the airport in Buenos Aires

Airport transfer and express bus tour of Tierra Del Fuego National Park after disembarkation in Ushuaia

EXCLUSIONS

International flights

Any other pre or post land arrangements not mentioned above

Passport and visa expenses

Government arrival and departure taxes not mentioned above

Baggage, cancellation, interruption and medical travel insurance—strongly recommended

Mandatory waterproof pants for Zodiac cruising, or any other gear not mentioned

Voluntary gratuity at the end of the voyage for shipboard staff and crew

Excess-baggage fees on international and domestic flights

Laundry, bar and other personal charges unless specified

Optional Adventure Activities

Difficulty Rating

2 (light adventure)

Single Surcharge

Available upon request, a supplement surcharge applies and is subject to availability. Please [contact us](#) for more information.
