

Antarctica - Antarctica: Whale Watching Discovery & Learning | Ortelius

Trip Code

ACOWWW11

Departure

Introduction

Join this voyage to the Antarctic Peninsula, where the thrill of whale watching is just the beginning. This expedition offers a rare opportunity to see whales, seals, and penguins up close in their natural habitat. You will be surrounded by breathtaking landscapes of rugged rock and pure white snow experiencing the same sights as the early polar explorers. With expert guides and flexible itineraries, each day brings new adventures and discoveries with options for long hikes and other activities that immerse you in the stunning ecosystem. Each moment is a chance to connect with nature and create lasting memories.

Itinerary

DAY 1: Arrival in Ushuaia, Argentina &
Embarkation

Your voyage begins where the world drops off. Ushuaia, Argentina, reputed to be the southernmost city on the planet, is located on the far southern tip of South America. Starting in the afternoon, you embark from this small resort town on Tierra del Fuego, nicknamed "The End of the World," and sail the mountain-fringed Beagle Channel for the remainder of the evening.

Departure

18/03/2027 - 23/03/2028

Duration

11 Days

Over the next two days on the Drake

Passage of Peninsula Antarctica

experiences encountered by the great polar explorers who first charted these regions: cool salt breezes, rolling seas, maybe even a fin whale spouting up sea spray. After passing the Antarctic Convergence - Antarctica's natural boundary, formed when north-flowing cold waters collide with warmer sub-Antarctic seas - you are in the circum-Antarctic upwelling zone. Not only does the marine life change, the avian life changes too. Wandering albatrosses, grey-headed albatrosses, black-browed albatrosses, light-mantled sooty albatrosses, cape pigeons, southern fulmars, Wilson's storm petrels, blue petrels, and Antarctic petrels are a few of the birds you might see.

DAY 4: Entering Antarctica - Days 4 to 8

Duration

The Antarctic landscape presents a stunning

spectacle of gray stone peaks dusted with

Antarctic Peninsula for Antartica of broken

blue-white ice, amidst a diverse array of

wildlife both above and below. As you

navigate past the snow-capped Melchior

Islands and through the Schollaert Channel

between Brabant and Anvers Islands,

several notable sites await exploration:

Danco Island offers opportunities to observe

gentoo penguins nesting on the island,

along with sightings of Weddell and

crabeater seals nearby. Neko Harbour

boasts mammoth glaciers and wind-carved

snow, providing ideal conditions for Zodiac

cruises and landings with close-up views of

the surrounding alpine peaks. Paradise Bay

invites you to embark on a Zodiac cruise

through sprawling, ice-flecked waters, with

a high likelihood of encountering humpback

and minke whales. Pléneau & Petermann

Islands, weather permitting, allow for a

potential passage through the Lemaire

Channel in search of humpback and minke

whales, as well as leopard seals. Port

Lockroy, accessible via the Neumayer

Channel, offers the opportunity to visit the

former British research station on Goudier

Island, now transformed into a museum and

post office. Activities around Jougla Point

may include encounters with gentoo

penguins and blue-eyed shags. At nearby

sites like Damoy Point, you may have the

chance for snowshoeing to the old ski-way,

a favorite camping site. Wilhelmina Bay &

Governøren provide excellent opportunities

for spotting humpback whales. You may also

embark on a Zodiac cruise culminating at

the ghostly wreck of the Governøren, a

whaling vessel that caught fire here in

1915. Around the Melchior Islands, amid a

frozen landscape populated with icebergs,

further encounters with whales, leopard

seals, and crabeater seals are possible.

Charlotte Bay offers the potential to

encounter a variety of wildlife, including

gentoo penguins, Weddell seals, and

possibly migrating whale species such as

humpback whales or minke whales. Please

note that departure times are subject to

conditions in the Drake Passage.

Departure

18/03/2027, 23/03/2028

Duration

~~11 Days~~ Crossing the Drake Passage - Days 9

~~Locations~~

Antarctic Peninsula, Antarctica

Your return voyage is far from lonely. While crossing the Drake, you're again greeted by the vast array of seabirds remembered from the passage south. But they seem a little more familiar to you now, and you to them.

DAY 11: Disembarkation in Ushuaia

Every adventure, no matter how grand, must eventually come to an end. It's now time to disembark in Ushuaia, but with memories that will accompany you wherever your next adventure lies. Please note: Cruise itinerary is subject to change depending on weather conditions, ice conditions and other factors.
