

The Arctic - The Geographic North Pole 13 Days | Le Commandant Charcot

Trip Code
ACPO13NP
Departure

Introduction

Go to 90 degrees North! The greatest expeditions have been attempting to reach the North Pole periodically since the 16th century. This legendary destination both draws and inspires adventurers and dreamers who are looking to explore the other side of the globe.

Sailing to reach the holy grail of all adventures, âthe end of the world.â Enjoy scenery that changes constantly due to the shifting ice and light. Here, the natural world is in charge, conserving amazing species that you could be fortunate enough to encounter as your voyage goes on, such as whales, seals, and polar bears if you're lucky enough! As you make your way towards the North Pole, you will continue to explore this isolated, freezing realm!

The ice floe is continually drifting due to the winds and currents, and your ship's captain will move cautiously and humbly in an effort to reach the planet's northernmost point.

Departure

27/07/2027 - 08/08/2027 - 20/08/2027 - 01/09/2027

Duration

13 Days

Fly from Paris to Longyearbyen on a chartered flight this morning. We highly recommend you arrive in Paris at least one night prior. Longyearbyen is the capital of the Norwegian Svalbard archipelago, located on Svalbard's main island, and is the northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory. Embarkation will be around 4:00 pm to 5:00 pm and departure at 6:00 pm.

DAY 2: Navigating along Spitsbergen

The largest island in the Svalbard archipelago, its name meaning "pointed mountains" in German, Spitsbergen is the last piece of land before the Arctic ice floe. Aboard your ship, you will sail along the extremely spectacular coastline of this icy land. Between millennial glaciers and rugged mountains, you will discover a jagged coastline, hollowed-out by fjords. A unique setting, the refuge of a particularly rich avifauna, offering you the possibility of taking fabulous photographs from the deck of your ship.

Departure

27/07/2027 - 08/08/2027, 20/08/2027, 01/09/2027

Duration

13 Days

Enjoy the absolutely unique experience of sailing to the heart of the ice floe, this vast expanse of virgin, immaculate ice. The

landscapes are constantly changing, shifting

from a smooth, flat wilderness to a chaos of

ice, then to channels of open water. Your

ship will sail along these naturally open

channels and through the areas where the

frozen layer is thinnest, offering you the

chance to experience magic maritime

moments in the midst of drifting sea ice. It

will also often be an opportunity to see a

particular kind of fauna, totally dependent

on the ice floe.

DAY 6: Geographic North Pole - Day 6 & 7

Defined by a 90° North latitude, the

Geographic North Pole lies on the Earth's

rotational axis, at the intersection of all

meridians. Plunged into darkness for six

months of the year, then lit by the sun for

the following six months, this mythical site,

permanently covered in ice and remote from

any land, has fascinated generations of

explorers. So far, only a very few people

have ever reached it: an exploit which is

now accessible to you aboard Le

Commandant Charcot.

DAY 8: Navigating through the sea of ice

Enjoy the absolutely unique experience of

sailing to the heart of the ice floe, this vast

expanse of virgin, immaculate ice. The

landscapes are constantly changing, shifting

from a smooth, flat wilderness to a chaos of

ice, then to channels of open water. Your

ship will sail along these naturally open

channels and through the areas where the

frozen layer is thinnest, offering you the

chance to experience magic maritime

moments in the midst of drifting sea ice. It

will also often be an opportunity to see a

particular kind of fauna, totally dependent

on the ice floe.

Duration

13 Days

DAY 11: Ny-Alesund

Locations

Spitsbergen, Geographic North Pole

During your cruise, discover Ny-Alesund, a former mining town that has been transformed into a scientific base. Founded in 1916, this small town was the departure point for many Arctic expeditions, including those of the famous explorer Roald Amundsen. Don't miss a visit to the museum and its famous post office, considered to be the most northerly in the world!

DAY 12: North-west region of Spitsbergen

A kingdom of contrasts and natural marvels dotted with islands and peninsulas, northwest Spitsbergen fascinates with its preserved beauty. On these pristine lands, infinity unveils itself, treating the eyes to beauty sculpted by nature and enhanced by the changing light. The fjords bathed by icy waters, the jagged mountains and the imposing glaciers stand majestically before you, like monumental sculptures. In these lands, where souls are filled with deep serenity, only the murmur of broken ice, bearing mysteries and legends, disturbs the calmness. Aboard our Zodiacs and in the company of naturalist-guides, get as close as possible to this unique fauna and discover this centre for scientific expedition departures. In the distance, majestic whales glide silently through the glacial waters, whereas seals, walrus and Arctic foxes add a playful touch of life. As Svalbard reindeer wander the vast expanses, Arctic terns liven up the polar sky with their gracious flight and polar bears, which you may be lucky enough to see, patrol magnificently along the icy shores.
