

The Arctic - Disko Bay & Inuit Villages | Le Lyrial

Trip Code
ACPOLDB
Departure

Introduction

Cruise through the icy expanse of Baffin Bay on an unforgettable journey into the heart of the Arctic. This expedition takes you to one of the world's most remote and striking landscapes, where towering glaciers, rugged cliffs, sweeping tundra and otherworldly terrain create a dramatic and ever-changing backdrop. Along the way, you'll have the chance to visit Inuit communities and gain a deeper understanding of their rich culture and strong connection to the land.

A highlight of the voyage is sailing through the spectacular Disko Bay, a UNESCO World Heritage Site known for its immense, sculptural icebergs that drift silently through the water. Wildlife sightings are also a special part of the journey, with seals, whales and seabirds often appearing along the route. With its blend of raw natural beauty, cultural insight and unforgettable wildlife, this is a rare opportunity to experience the wonder and fragility of the Arctic.

Departure

02/09/2027

Duration

8 Days

Locations

Greenland

On the coast of Nuuk, he found a fertile and welcoming land dotted with fjords. He settled there with a group of his former countrymen, and the Norse remained the principal inhabitants until, over a period of 500 years, their population declined and gave way to the Inuit. Nuuk is situated at the mouth of one of the largest networks of fjords in the world, where the waters never freeze. The town spreads gently out towards the Davis Strait and enjoys an historic center that is particularly rich in national heritage. The vivid reds, blues, greens and yellows of the houses are a lively contrast to the somber waters of Greenland and serve to lift the spirits of the locals during the Winter months.

DAY 2: Evighedsfjorden

Your ship glides slowly along the water towards the west coast of Greenland, to enter Evighedsfjorden, just a few kilometres south of Kangerlussuaq. Evighedsfjorden means “the fjord of Eternity”, and for good reason: just when you think you’ve reached the end of this stretch of sea measuring over 100 kilometres in length, it seems to go on forever, as though to bring even more pleasure to those sailing in it. The spectacular scenery ranges from glaciers to tundra with an abundant flora, and jagged cliffs where numerous bird species have taken up residence. Take the time to observe the white-tailed eagles and the colonies of seagulls and black-legged kittiwakes flying overhead in the area.

DAY 3: Qeqertarsuaq

Duration

8 Days

On the southern coast of Disko Island,

Qeqertarsuaq is one of just two small

villages on this island the size of Corsica. Its

isolation makes it an observation post

popular among naturalists since the

beginning of polar exploration and the set-

up, in 1906, of the Arctic Centre research

facility. During a zodiac cruise you will have

the chance to explore the natural wonders

of Greenland, meet its wildlife such as the

humpback whale and contemplate the

basaltic organ landscapes that offer pure

moments of wonder for you. In the heart of

this spectacular and fragile nature, enjoy

the breath-taking views of the grandiose

and varied landscapes of Disko Island and

Disko Bay.

DAY 4: Paul-Émile Victor Base Camp, Eqi Glacier

'The most beautiful place in the Arctic' is

how Paul-Émile Victor described Greenland,

a land of great icebergs and of towering ice

formations calved by the giant glaciers of

the polar ice cap. The Eqi Glacier is one of

the region's most impressive sights. Here,

the silence is broken only by the roaring and

cracking of the ice. It is impossible to know

if one is shivering from cold or from the

sheer thrill of being here... Imagine the vast

outline of a glacier, its translucent crystals

glowing with an ice-blue fire in the sunlight.

Paul-Émile Victor's shelter cannot be

overlooked; it was from here that the

French Polar Expeditions' anthropological

and geographic explorations set off in the

1950s.

DAY 5: Akulleq & Uummannaq

Duration

8 Days

Locations

Greenland

In the curve of Uummannaq Bay, opposite a narrow passage between two islands, you will discover the moonscape of the small desert island of Akulleq. The ochre yellow and orange of this mineral site look ablaze under the sunshine of the polar summer.

From the island's summit you will be able to contemplate a panoramic view of the bay's magical landscape and its huge icebergs with surprising shapes. The "heart-shaped" rock overlooking it is what inspired the name of the island and village of

Uummannaq, where the locals will welcome you with their incredible sense of hospitality and humour, essential to their survival in these northern lands. Seven Inuit villages also dot this territory where people still get around on dog sleighs or in kayaks.

Mingling tradition, respect for nature and modernity, the authentic and lively atmosphere that reigns nowadays in this region inhabited since the 15th century will win over visitors, as will the magnificent landscapes that compose it, a mix of peninsulas and of peaks standing more than 2,000 metres tall.

DAY 6: Disko Bay

To the east of Baffin Bay, discover Disko Bay, scattered with countless icebergs produced by the Ilulissat Icefjord, a UNESCO World Heritage Site. From your ship, admire the majestic ballet of these ice giants as they slowly drift across the dark waters. This site is a natural marvel of Greenland, and is also renowned as an observation point for the region's many humpback whales. The encounters with wild fauna and stunning landscapes in the heart of this spectacular and fragile nature will be pure moments of wonder for you.

DAY 7: Sisimiut & at sea

Duration

8 Days

During your cruise, we invite you to

discover Sisimiut, founded in 1756 and the

second largest town in Greenland. This

small town is typical of Greenland, boasting

bewitching panoramas: here and there,

colourful stilt houses dot the undulating

landscape, and the small fishing port stands

as the gateway to an icy realm. As for the

town centre, it is home to a number of

historic buildings, a small church and a

museum which retraces the history of the

Inuit people, as well as many craft shops.

When your ship drops anchor here, you will

set out to meet the locals in a typically

arctic atmosphere. During your journey at

sea, make the most of the many services

and activities on board. Treat yourself to a

moment of relaxation in the spa or stay in

shape in the fitness centre. Depending on

the season, let yourself be tempted by the

swimming pool or a spot of sunbathing. This

journey without a port of call will also be an

opportunity to enjoy the conferences or

shows proposed on board, depending on the

activities offered, or to do some shopping in

the boutique or to meet the PONANT

photographers in their dedicated space. As

for lovers of the open sea, they will be able

to visit the ship's upper deck to admire the

spectacle of the waves and perhaps be lucky

enough to observe marine species. A truly

enchanted interlude, combining comfort,

rest and entertainment.

DAY 8: Disembark in Nuuk and fly to Paris

Your Arctic journey comes to an end this

morning, you will arrive back in the early

hours and disembark at 8am. From there

you will be transferred to the airport for the

flight back to Paris.
