Introduction

Explore the remote islands beyond the Arctic Circle as you travel along Greenland's east coast, from Spitsbergen to Iceland. This polar kingdom is home to the world's largest network of fjords (including the famous Scoresby Sound), towering snow-capped peaks, massive icebergs, ancient glaciers, and untamed tundra teeming with incredible wildlife. Along the way, you'll delve into the rich history of these far-flung regions and meet the local custodians who protect and preserve these wild landscapes.

Itinerary

DAY 1: Fly Paris to Longyearbyen and Embark

Fly from Paris to Longyearbyen. Longyearbyen is the capital of the Norwegian Svalbard archipelago, located on Svalbard's main island, and is the northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory. * We suggest you to be at the check-in counter 2 hours before departure. We highly recommend you arrive in Paris the day before this flight.

former mining town that has been transformed into a scientific base. Founded in 1916, this small town was the departure point for many Arctic expeditions, including those of the famous explorer Roald Amundsen. Don't miss a visit to the museum and its famous post office, considered to be the most northerly in the world!

DAY 3: North-West Region of Spitsbergen -
Days 3-6

A kingdom of contrasts and natural marvels dotted with islands and peninsulas, northwest Spitsbergen fascinates with its preserved beauty. On these pristine lands, infinity unveils itself, treating the eyes to beauty sculpted by nature and enhanced by the changing light. The fjords bathed by icy waters, the jagged mountains and the imposing glaciers stand majestically before you, like monumental sculptures. In these lands, where souls are filled with deep serenity, only the murmur of broken ice, bearing mysteries and legends, disturbs the calmness. Aboard our Zodiacs and in the company of naturalist-guides, get as close as possible to this unique fauna and discover this centre for scientific expedition departures. In the distance, majestic whales glide silently through the glacial waters, whereas seals, walrus and Arctic foxes add a playful touch of life. As Svalbard reindeer wander the vast expanses, Arctic terns liven up the polar sky with their gracious flight and polar bears, which you may be lucky enough to see, patrol magnificently along the icy shores.

07/08/2027 Húsavík, Iceland

Duration

14 Days

According to the Landnámabók, a historical text describing the discovery of Spitsbergen, Greenland, Iceland and the Faroe Islands by the Scandinavians in the 9th and 10th centuries, Húsavík is the site of the first Nordic settlement in Iceland. This small fishing port very close to the Arctic Circle is known for being the place where there is the highest chance of spotting whales. A museum is even dedicated to them. The small town is also the ideal departure point for discovering Ásbyrgi Canyon, a geological treasure that is the subject of Nordic legends. The horseshoe-shaped canyon is divided in two by a huge rock formation called Eyjan (island in Icelandic). Covered in trees, the canyon is said to have appeared when Sleipnir, the god Odin's horse, set one of his eight hooves down on the ground.

DAY 13: Grundarfjörður

This secret boreal hideaway is located at the foot of the Kirkjufell, on Snaefellsnes peninsula. Arriving by boat means you will get a closer view of the lava-stone rock standing like a sentinel at the entrance to the bay; Grundarfjörður lies sheltered behind this cone-shaped rock. A stone's throw from the jetty, crystal clear waters, tundra and beaches give onto the cerulean waters of Breiðafjörður. Scattered with its emerald-coloured lawns, this town, with its buildings that merge into the surrounding countryside, will most certainly win your favour.
