

Ecuador - Southern Galapagos Cruise 6 Day Itinerary A | Sea Star

Trip Code
ECRG6DSA
Departure

Introduction

This 6-day Galapagos cruise offers travellers a dynamic mix of wildlife encounters, guided hikes, and snorkeling adventures across six islands. The cruise starts at San Cristobal Island with a visit to a tortoise breeding center. Followed by close-up views of land birds like warblers and finches. On Española Island, expect dramatic cliffside views, nesting albatrosses, and playful sea lions at Gardner Bay. Explore historic sites like Post Office Bay on Floreana Island, as well as exploring volcanic reefs at Devil's Crown. Santa Fe and South Plaza Islands feature cactus forests, land iguanas, and panoramic trails. North Seymour offers prime sightings of frigate birds and blue-footed boobies, while Bachas Beach invites swimming alongside nesting sea turtles. The cruise finishes with a last chance to spot dense sea lion colonies or the occasional orca sighting, before returning to Baltra for your departure.

Want to explore more of these magnificent Galapagos Islands? You can combine this cruise itinerary onboard the **Galapagos Sea Star** with either the [Northern Galapagos Cruise 5 Day Itinerary](#) or the [Western Galapagos Cruise 6 Day Itinerary](#) to the start or end of this current itinerary.*

Departure

Selected Tuesdays

Direct Arrival at San Cristobal Island

Duration

6 Days
In the morning you will arrive at San Cristobal Island in the morning. After passing through immigration and baggage claim, you will be met by a Sea Star staff member and transferred to the yacht. You will be shown to your cabin where you will have some time to settle in before lunch and a welcome briefing. In the afternoon you will go to David Rodriguez Breeding Center "La Galapaguera", in Cerro Colorado, which is a new visitor site in the southeast part of San Cristobal Island and can now be reached in roughly one hour by road from Puerto Baquerizo Moreno. On the trees and shrubs surrounding the site, you may see land birds like warblers, finches and mockingbirds. Giant tortoises can be observed on the trails. They live there wild but in a protected area to ensure their survival by sealing them off from introduced predators like pigs and goats.

Direct Arrival at San Cristobal Island

DAY 2: Espanola Island

In the morning, on the trail to Suarez Point you will have the chance to spot blue-footed boobies, albatrosses, and Nazca boobies. This island is the breeding site of nearly all of the world's 12,000 pairs of waved albatrosses. You will also visit a beautiful site on the ocean front where there is a cliff that the large albatrosses use as a launching pad! You will have the chance to see the famous blowhole that spurts sea water into the air. The landscape is great for photography. In the afternoon you will visit Gardner Bay, Gardner Islet & Osborn Islet. This excursion takes you to the spectacular Gardner Bay. After landing, you can walk across a lovely white-sand beach amongst a busy sea lion colony or dive into the water to swim with sea lion pups. You may also see curious mockingbirds on the beach.

6 Days

Location Ecuador, Galapagos Islands, South America

In the morning you will visit Cormorant Point. Cormorant Point hosts a large Ecuador Lagoon where other birds such as common stilts and white-cheeked pintails can also be seen. The beaches on this island are distinct: The Green Beach is named so due to its green colour, which comes from a high percentage of olivine crystals in the sand, and the Flour Sand Beach is composed of white coral. Afterwards, you will have a chance to snorkel around Devil's Crown which is the rocky remains of an offshore volcano sticking out of the water. This is a great location to spot a wide range of marine creatures. In the afternoon you will visit Baroness Viewing Point. Baroness Viewing Point is a fantastic place to absorb the environment of the Galapagos. Once inhabited by an indulgent baroness and her three lovers, the history of this island is intriguing. The legends about this baroness are associated with a fascinating murder mystery. There are easy trails in this area for exploring the flora and fauna of Floreana. Afterwards, visit Post Office Bay, You will land on a beach and head to a spot where 18th century whalers placed a wooden barrel used as an unofficial mail box. The custom continues to this day with Galapagos visitors. So, don't forget your postcards, and don't be surprised if the post card arrives to its destination before you even get home!

Day 4: Santa Fe & South Plaza Islands

Duration

6 Days

Locations

Ecuador, Galapagos Islands, South America

Picturesque bay and anchorage on the

island's northeast coast. The bay has two

visitor trails: one leading to a scenic

viewpoint atop a cliff, and the other

spanning from a small beach to a tall prickly

pear cactus forest. In the afternoon you will

visit South Plaza Island. This small island

with steep cliffs was formed by rising lava

and is now covered by Opuntia cacti. It is

also home to one of the largest sea lion

colonies as well as colourful yellow and red

land iguanas. The most characteristic plant

is the Sesuvium. During the rainy season its

colour is a greenish to yellowish tone and in

the dry season (end of June through

January) a bright red.

DAY 5: North Seymour & Santa Cruz

Islands

In the morning on North Seymour Island

you may see Galapagos sea lions, blue-

footed boobies, and magnificent frigate

birds which are abundant on this island.

North Seymour was formed by a series of

submarine lava flows containing layers of

sediment that were uplifted by tectonic

activity. The island is characterized by its

arid vegetation zone. In the afternoon you

will visit Bachas Beach. Bachas Beach is

located on the north shore of Santa Cruz

and is a beach for swimming. One of the few

remnants of the U.S. World War II presence

in the Galapagos, a floating pier, can be

seen here. You may see flamingos, Sally

Lightfoot crabs, hermit crabs, black-necked

stilts, and whimbrels. Sea turtles also nest

on the beach.

 Departure
 Selected Tuesdays
 Departure
 Mosquera Islet & Baltra Airport
 Duration
 6 Days

Locations Starting you will visit Mosquera Islet. Ecuador-Galapagos Islands-South America Mosquera Islet is located between the islands of Baltra and North Seymour. This reef of rocks and coral (the result of an uprising) is only 160 meters across at its narrowest width. This island has one of the largest populations of sea lions and is home to many shorebirds. There have been occasional reports at this site of orcas feeding on sea lions. After this final visit, you will be transferred to the Baltra airport in time for your flight back to the mainland. Please note: Itineraries are generally stable but may change due to weather, wildlife, safety, park regulations, guest abilities, or operational needs. Not all listed activities on each visitor point may be completed. Your guide and captain will always aim to choose the best possible itinerary.

Inclusions & Details

Accommodation

Cabin on board ship

INCLUSIONS
