Welcome to Antarctica in all its awe-inspiring glory. This is your opportunity to become more intimately acquainted with Antarctica by Zodiac, kayak, snowshoe, or during a magical night of camping as you look up at the stars or listen to the ethereal call of a nearby whale. For those participating in our Citizen Science program, the important work of understanding and documenting this fragile environment continues. Prepare to be amazed as we encounter numerous species of penguins, seals, and whales, both along the rugged coastline and in open waters. With opportunities to visit penguin colonies and historic landing sites, we plan to take full advantage of all the White Continent has to offer.

Over time, volcanic activity in the South Shetland Islands has created a geology unlike any other. Here, you can expect a spectacular display of mountains, glaciers, and wildlife, including Chinstrap and Gentoo penguins.
